Consumer Notes:

I think this is some kind of a first ... four pages of stuff this month! Fortunately, much of it is merchandise so you don't have to clear out your video shelves (well, not just yet anyway). You've got two more Outlaw Star tapes (pretty cool) as well as the first AWOL (also cool), a big chunk of Fushigi Yuugi on DVD, a new volume of Lain (watch this show ... it's excellent) and yet another volume of Urusei Yatsura TV. Also, for all you customers who really like Star Blazers, this month sees L. Matsumoto's (the creator) "Cockpit" tape. And, even more Dragonball Z! All in all, a heavy month even without all that merchandise! Finally, the new catalog is not far from completion ... expect it soon!

JEFF'S PICK(S) OF THE MONTH

While Outlaw Star is a really good show (and at the risk of falling into the same bottomless pit that the rest of America seems to be in right now), probably the best thing in this newsletter are those Pokemon PVC figures. I've got a bunch of them on my desktop for inclusion in the new catalog as I create this, and I must say that they're surprisingly nice.
